La struttura è in profilato di metallo verniciato, pannelli in multistrati e agglomerato di legno. Il molleggio di seduta è disposto da cinghie elastiche. L'imbottitura è in poliuretano espanso indeformabile a densità differenziata senza C.F.C. e fibra 100% poliestere. I piedini sono in polipropilene colore nero. Nella versione componibile i vari pezzi si collegano attraverso perni di innesto predisposti sulla struttura. Gli elementi "Angolare" e "Terminale dormeuse" hanno la seduta fissa e solo nel "Terminale dormeuse" è possibile regolare manualmente l'appoggiatesta. I divani con un bracciolo sono abbinabili solo con l'elemento angolare; i terminali dormeuse e pouf non sono invece abbinabili tra loro. La posizione - relax si ottiene sedendosi e spingendo avanti il sedile. Completamente sfoderabile.

The supporting frame is in varnished metal section, stopping panels in multilayer and agglomerate wood. The spring system of the seat is composed of elastic belts. The padding is made of C.F.C. - free non-deformable polyurethane in differentiated density and fibre 100% polyester. The feet are in polypropylene, black colour. For the modular version the connection between the various units is realized by means of joint-pins included in the frame. The "Corner unit" and the "End long- chair" have got fixed seat and only in the "End long-chair" the headrest is manually adjustable. The sofas with one arm can be connected to the "corner unit"; the "end long-chair" and footstool can not be connected together between themselves. The relax position is obtained by sitting and pushing forwards the seat. Completely removable covers.
